Tips and FAQ

1. Publicity

- 1.1. Set out your goals: ensure they are realistic & achievable – if successful you will ultimately be answerable to the student body who might decide to ask you why you've not achieved what you said you would
- 1.2. Be relevant: what skills and experience can you bring to the role you are standing for? For example, you might have examples of situations in which you have shown leadership, which could indicate to voters that you're the candidate to represent them.
- 1.3. Be concise and use clear language: Avoid long, complicated words as they are likely to just alienate important voters
- 1.4. Don't discredit your opponents: your manifesto is only about you and what you will do. Discrediting and disrespecting others could lead to a libel lawsuit and is against the rules!
- 1.5. A well-written and interestingly designed manifesto can make a significant difference in influencing people to vote for you.
- 1.6. A survey carried out by NUS into voter attitudes revealed that many people did not vote in Union elections because it was often unclear what the candidates stood for. They wanted to know who the candidate was, what they believed in and what they would do if they got into office. Think about what would influence you to vote for someone. What do you believe? The student rep system could be better? There should be better sports facilities? Whatever it is, make a list of your beliefs. You need to select the ones that you think would be popular with students, but are also achievable. There are many candidates in Union elections who have announced that they will make the beer cheaper, only to be given a lesson in economics by other candidates in the election.
- 1.7. Select 3 beliefs. Write down the issue and how it affects students and what you would do if you get elected. Make it concise and to the point. Think of snappy titles that you can give to your three beliefs.

Voters tend to scan read the election material, so it is crucial to draw them in with a headline.

1.8. Who are you? It is amazing how many candidates forget to tell the voters about themselves. Students will often vote for candidates who have something in common with them. So briefly tell them:

9.1. What course you are on

9.2. Where you are from

9.3. Membership of clubs and societies

9.4. Ask the voter for their vote and finally thank the voters for voting for you.

2. Campaign Techniques

2.1. Getting elected is all about being seen and remembered (preferably in a good light!). Talk to students as much as possible - about yourself, your views and manifesto. This not only benefits them but also enables you to polish up and perfect your pitch.

2.2. 1st years are more likely to vote than 2nd years.

2.3. Go to the RCAfé and ArtBar and talk to people. Students are more likely to vote for you if they can put a face to the name.

2.4. Target main entrances.

2.5. Leave plenty of manifestos in the Common Room, RCA canteen, RCAfé, ArtBar, Dyson café and the Ground floor café at White city, but remember to ask first out of courtesy. Students do discuss elections and whom they are going to vote for over a coffee or a pint, so make sure you are well represented.

2.6. Take flyers/manifestos to lectures - in fact keep them with you at all times as you never know when a canvassing opportunity may appear.

2.7. Be friendly and genuine, listen and respond to your electorate.

3. Common forms of publicity

- 3.1. Flyers to hand out and A4 posters on notice boards
- 3.2. T-shirts or other clothing with your name or campaign slogan
- 3.3. Badges
- 3.4. Campaign content on Twitter / Facebook / Instagram
- 3.5. RCASU website

4. Experience

- 4.1. You do not need to have prior experience, however it would be helpful if you were a good communicator, work well in a team and had some knowledge of the Students' Union and how it operates. Basic meeting and organisational skills would be a great asset, and it may help if you've had past experience / involvement in any of the Unions' standing committees but this is by no means essential.

5. Activities

- 5.1. As a Trustee of the Union you will have legal responsibilities. When taking up the Officer position you become a member of a team who are collectively responsible for running of the entire organisation. This includes making short-term decisions and devising and promoting long term plans for the whole Union. In practice this will include depending on others to deliver, but also you'll become involved in discussions and projects, which do not appear to be relevant to your specific work area. Officers take part in representing students on the College boards. You will be expected to attend and report to various meetings and committees. All Officers are expected to manage the budgets associated with their activities.

6. Reporting

- 6.1. You will be accountable to your colleagues, committee members in your work areas and ultimately to all students via the RCASU constitution. You will also be expected to keep yourself accountable by producing reports.

7. Support

7.1. During the first month in office, the newly elected Officer gets training and advice from a number of sources:

- a) In house training
- b) Out-going Officers
- c) A range of specialist courses run by NUS for Officers who work in your area
- d) Other regional/national events
- e) You will receive much of your support from the Union's core staff team. They are employed to run the operational activities of the Union and to help you, as elected officials achieve the objectives of the Union. Outgoing Officers will provide as much support as you require.
